Sub :- Structural Stability & Completion Certificate

I have Checked as Structural Engineer for the structural work of the development on property bearing Plot No. 20, Sector No.1, Indrayaninagar, Bhosari, Pune. The Wing A & B on First, Second Floor for Primary School Building, P.C.M.C., Bhosari, Pune.

The following listed firm/ persons are associated with the work.

Name of owner : Sterling School,
Indrayaninagar, Bhosari, Pune.

Based on quality assurance certificates by the licensed supervising engineer or the builder/contractor so qualified we further certify that to the best of my knowledge, the structural work is carried as per prescribed applicable standards and codes, rules regulations and stipulations, the materials used, workmanship and methodology.

Employed for construction work is of accepted standard and work is completed to render it fit for completion for intended use. Do **STRUCTURAL AUDIT** of the Property every 5years.

This certificate is issued for the safety and proper performance of the structural design ceases, the moment any addition or alteration in the structure, damage anywhere in building to structural frame caused due to an accident or tampering with the size and shape of any structural element / member anywhere in the building for any purpose whatsoever, or due to overloading of the structure anywhere or due to lack of maintenance or any act that is affecting / dangerous to the structure as whole.
